

Family **FARM & FEAST**

International food and fun at Tufnell Park School

The HSA has been given a grant by Santander's community fund to support families growing fresh food and cooking together at our school.

Sunday 20th March 1:30-4:00pm: Family Farming Day.

Come to the school to plant vegetables and herbs with your family. Wear warm clothes and shoes you don't mind getting dirty! Gloves and tools are provided, and there will be refreshments.

Summer term: April to July. All children at the school will have the chance to learn gardening with a brilliant, experienced teacher. They will tend the vegetables planted on 20th March and grow other things as well.

Sunday 17th July from 9:30am: Family Feast Day. Come to the school to harvest the crops, prepare and cook them. We will use four kinds of vegetable in different ways to cook food from around the world. Children and adults can learn together – tools and extra ingredients will be provided. And then we'll eat.
